Education

2016- **Dr. rer. nat., Physics,** ***Supervisor: Prof. Dr. Henning Riechert***
Humboldt Universität, Berlin, Germany

2014-2015 **M. Sc., Physics,** ***Supervisor: Prof. Guillaume Gervais***
McGill University, Montreal, Canada

2010-2013 **B. Sc., major Physics & minor Philosophy**
McGill University, Montreal, Canada

Aptitudes

Hard skills

Data analysis: *5+ years of experience visualizing and understanding data trends for scientific purposes, statistical treatment of experimental data using self-made analytics tools.*

Project management: *Central role in own research projects, leading real-life and virtual collaborations while handling deadlines and stress.*

Programming: *Frequent use of various programming languages for data processing, instrument control, and personal projects (Python, Git, Mathematica, Matlab, HTML, CSS).*

Writing: *Co-authored 6+ scientific publications.*

Teaching: *Violin professor for 4+ years (2006-2010, then occasionally), experimental physics teaching assistant (counseling and grading), private tutor of mathematics (2010).*

Soft skills

Leadership: *Involved since high-school in multiple student committees, often occupying elected leading positions (student body president/delegate), PhD student speaker (2017-2019, Paul-Drude-Institut für Festkörperelektronik).*

Problem-solving: *Result-driven mentality perfected through 5+ years of research at the forefront of nanoelectronics, solving many technical, scientific, and quantitative problems.*

Inventiveness: *Proposed a patent pending (Germany, 2017) device meant to tune the spin polarization of electronic charge currents, competence in designing experiments and providing solutions reaching beyond my own projects.*

Professional experience

2016-2019 **Paul-Drude-Institut für Festkörperelektronik**, doctoral researcher
project: Spin-selective transistor.

2014-2015 **McGill University**, graduate researcher
project: Electron interferometer.

2013 **McGill University**, undergraduate researcher
project: E-beam lithography.

2012 **American Biltrite**, technician in chemistry
project: PVC-free flooring materials.

Personal

Citizenship: Canadian
Birthdate: October 8, 1989
Languages: French (native), fluent English, advanced German, basic Italian.
Interests: sports (hiking, martial arts, cycling), music performance (violin, piano).

Publications

2018 Ordered structure of $FeGe_2$ formed during solid-phase epitaxy. B. Jenichen, M. Hanke, **S. Gaucher**, et al. Phys. Rev. Mater. **2** 051402

2018 Ferromagnet/semiconductor/ferromagnet hybrid trilayers grown using solid-phase epitaxy. **S. Gaucher** et al., Semicond. Sci. Technol. **33** 104005

2017 Specific heat and entropy of fractional quantum Hall states in the second Landau level. B. A. Schmidt, K. Bennaceur, **S. Gaucher**, et al., Phys. Rev. B **95** 201306

2017 Growth of $Fe_3Si/Ge/Fe_3Si$ trilayers on GaAs(001) using solid-phase epitaxy. **S. Gaucher** et al., Appl. Phys. Lett. **110** 102103

2017 $Fe_3Si/Ge/Fe_3Si$ thin film stacks on GaAs(001): a solid-phase epitaxy approach. **S. Gaucher** et al., PDI Annual Report 2016, 91

2015 Flip-Chip Fabry-Perot Electron Interferometer, **S. Gaucher**, Master's thesis.

2015 Mechanical Flip-Chip for Ultra-High Electron Mobility Devices. K. Bennaceur, B. A. Schmidt, **S. Gaucher**, et al., Sci. Rep. **5** 13494

Talks, Workshops & Outreach

06-07/2019 Leipzig (Germany), *Young Entrepreneurs in Science Workshop* offered by the Falling Walls Foundation, a 4-day training aimed at developing entrepreneurial potential among the next generation of scientists.

06/2019 Berlin (Germany), demonstrator at the Lange Nacht der Wissenschaften, **kiosk**: *Von Atomen, Nanokristallen und Transistoren – die Welt der Nanoelektronik*.

03/2019 Regensburg (Germany), Annual meeting of the German Physical Society, **poster**: *Structural and electrical properties of layered $FeGe_2$ thin films*.

11/2018 Berlin (Germany), speaker at the *Mind the Lab* event during the Berlin Science Week.

08/2018 Linz (Austria),10^{th} international School and Conference on Physics and Applications of Spin Phenomena in Solids, **poster**: *Magnetotransport in $FeGe_2$ thin films*.

01/2018 Berlin (Germany), Institute Seminar at the Paul-Drude-Institut für Festkörperelektronik, **talk**: *Ferromagnetic thin film heterostructures grown by solid-phase epitaxy*.

11/2017 Berlin (Germany), Annual meeting of the German Physical Society, **poster**: *$FeGe_2$ thin films grown by solid-phase epitaxy*.

09/2017 Vienna (Austria), Austrian MBE Workshop 2017, **talk**: *Magnetic properties of ferromagnet/semiconductor/ferromagnet hybrid trilayers grown by solid-phase epitaxy*.

09/2017 Bad Honnef (Germany), German Physical Society Summer School on Magnetism, **poster**: *$Fe_3Si/Ge/Fe_3Si$ trilayers on GaAs(001)*.

05/2017 Berlin (Germany), 25^{th} Anniversary of the Forschungsverbund Berlin, **slam**: *Have you seen my crystals?*

01/2017 Munich (Germany), Kerschensteiner Kolleg *Workshop on the Dissemination of Science*.

2015 Montreal (Canada), NSERC-CREATE Integrated Sensor Systems Graduate Training Program (McGill University).

05/2014 Montreal (Canada), Canadian Institute for Advanced Research: *Quantum Materials Summer School*.

Teaching

Fall 2015 PHYS-101: Introductory Physics - Mechanics (Lab TA)

Winter 2015 PHYS-258: Experimental Methods II (Lab TA)

02/2015 Introductory lecture on Python tailored for the PHYS-258 class

Fall 2014 PHYS-257: Experimental Methods I (Lab TA)

Winter 2014 PHYS-102: Introductory Physics - Electromagnetism (Lab TA)
